

RISK CONTROL CONSULTING

Training Series for Alliant Clients 2022-23 Calendar

Alliant will be offering a new series of online training aimed at educating our clients in areas of property protection and occupational safety and health.

[Leading Property Losses – How to Mitigate the Most Frequent and Costly Incidents](#) (archived)

August 10, 2022

Staying ahead of property losses can save you time, money and help you get back up and running faster. By developing a property maintenance checklist and program, you can avoid costly and frequent losses.

[So you have Vacant Properties – Why All the Fuss?](#) (archived)

September 14, 2022

While there may be no operational activities at your vacant buildings, the structure and its contents can still be at risk. Join us to find out what those hazards are and what you can do to prevent them.

[Q&A Session: Catastrophic Claim Preparation for the Alliant Policy Holder](#) (archived)

October 12, 2022

It is more important than ever for Alliant insureds to be both knowledgeable and prepared to quantify and correctly document potential financial losses. Having extensive expertise with some of the largest public entities, municipalities, K-12 and hospitals in the U.S, our presenters are well-versed in claim preparation, forensic accounting, and risk management services designed specifically for APIP/TPIP clients. Presented by experts in the claims process.

[Anatomy of a Water Based Fire Protection System](#)

November 9, 2022

Do you know how your sprinkler system works? It's strengths and weaknesses? How to keep it in operating condition and potentially in compliance? If the answer is "no" or "maybe/kind of" then join us for a discussion on this vital property conservation asset.

[Hoods, Ducts and Grease – Mitigating Exposure and Preventing Fire Loss](#)

December 14, 2022

Commercial kitchens, if your operation has one, are statistically one of the most likely places a fire will start. An uncontrolled fire here can cause fire and smoke damage, shutting down your operations. Are you doing

RISK CONTROL CONSULTING

everything you can to prevent this potentially crippling event? Join us to find out.

[Components of a Property Conservation Program](#)

January 11, 2023

A successful property conservation program can help reduce losses and any resulting injuries. In this discussion we will review the importance and primary components.

[Water and Its Damaging Effects on Property](#)

February 8, 2023

Water damage to buildings is a leading cause of loss. It is important to plan and act quickly when a water event occurs. This webinar will cover topics include: water intrusion prevention, actions for water intrusion events, effects on indoor air from mold growth, and general mold remediation practices. Resources on the topic will also be provided.

[Preparing for the Storm – How to Prepare for Wildfire Season](#)

March 8, 2023

Along with warmer weather, wildfire season is in view. We'll review key areas of prevention and equip you with the tools needed to help you get ready.

[What Keeps a Property Underwriter Awake at Night \(and how you can calm her nerves\)](#)

May 10, 2023

Details will be available in April

[Cyber – Not IF but WHEN you are compromised](#)

June 14, 2023

Details will be available in May

All training sessions are offered at no additional cost and will be held from 10am – 11am pacific Standard Time. **To register, click on the title** to be directed to the registration page. All presentations are recorded for on-demand playback.
